Academic skills support from the

**LEARNING HUB**

After watching the Write Right Panopto tutorial, think about how you have approached each of the elements in the past. Then, think about how this might change in university and what action you will need to take.

For example, you may have planned your course work using the recommended textbook. In university, you will need to read lots of different sources and type of information. Your action could then be that you will make sure you know where to access the course reading list.
